## Lanzarote

Dear Guests,

I hope that these personal recommendations, made by all my team, will make you enjoy this beautiful volcanic island and the work of its most famous artist, the multifaceted César Manrique, who fought until the day he died for its conservation, respect for its culture and traditions.

Our location in the centre of the island makes it easy for you to get from one place to another.

Reception will inform you about the public service to move around the island and its timetables or, if you wish to hire a car, which is the best way to make the most of your visits and move freely around the island.

We will also inform you about any activity or service you would like to enjoy, such as excursions, bike hire, surfing, etc.

Here are 3 routes and other points of interest so that, depending on the time you have available, you can enjoy magical places, have a wonderful swim in our waters and savour our excellent gastronomy.

Here are the links to their location so that you can make reservations or obtain information in advance.

In the Tourist Centres you will enjoy the work of Cesar Manrique and the volcanic nature of this island. You can buy vouchers for your visits and save time at the following link:

### 1. Southern Route

We will start with the **Timanfaya National Park**, declared a National Park in 1974, with 25 volcanoes, whose last eruption began in 1730 and ended in 1824.

How to get there: 

Leaving the Timanfaya in the direction of **Yaiza**, you will find on your right the "**Echadero de los camellos**", where you can climb up and ride on the camels (dromedaries in fact) among the lava of the Timanfaya

How to get there: 

**Yaiza** is a beautiful and quiet Canarian village with its white houses with green doors and windows. In front of the church of "Los Remedios" you will find a peculiar bar called Bar Stop, with its origins in the 19th century, with a wide range of typical Canarian tapas. I recommend you to try the "Sancocho de pescado", the "Garbanza" or the "Ropa vieja".

How to get there: 

**El Golfo** El Golfo is a small fishing village, just after arriving, on your left, you will find a car park where you can leave your car and, walking 2 minutes, enjoy the spectacular views of the volcano called "El Charco de los Clicos". In El Golfo you will find good restaurants such as **Casa Torano** or El **Bogavante**.

How to get there: 

In **Playa Blanca**, a tourist resort, you can enjoy the seafront promenade and the spectacular views of the island of Fuerteventura.

How to get there:

**The Rubicon Marina**, in Playa Blanca, is a marina with crystal clear waters and a reference point for lovers of the sea, fishing and sailing. It offers restaurants, shops and on Wednesday and Saturday mornings, it holds a market that combines the tradition of its cheeses, wines and local products with souvenirs.

How to get there:

**Papagayo Beaches** They are a 10 minute drive from Playa Blanca and to access them you have to pay 3 euros to enter the **Los Ajaches Natural Park** with your car. They are wonderful natural beaches that are well worth a visit. I recommend you to take water and lunch with you, as there is only one restaurant there and it can get very crowded.

How to get there:

On the way back from Playa Blanca, you will find **Playa Quemada**, another small fishing village that is well worth a visit. Here you can sample the local gastronomy in the restaurants **Sal Marina** and **El Pescador**, right by the sea.

**La Geria ,Rubicón, Stratus, Los Bermejos, La Florida y Vega de Yuco** are some of the wineries worth visiting to enjoy their wines and tapas. I recommend visiting in the morning, as the wineries are usually closed in the afternoon.

## 4. Other points of interest

**Lagomar House Museum**, located in the village of **Nazaret**. This spectacular house was built between the walls of the mountain and was designed by the architect Jesús Soto with the collaboration of César Manrique for the famous actor Omar Sharif, a lover of the island who had the audacity to bet this house in a game of bridge and lost it, after which he never returned to Lanzarote. Now converted into a museum, restaurant and bar, don't miss the opportunity to enjoy its beauty and views

How to get there:

**The Monument to the Peasant**, in the village of **San Bartolomé**, is one of the most representative works of César Manrique. In addition to enjoying the beauty of its construction, you will be able to taste all kinds of typical Canarian tapas, wines and see its traditional workshops.
